HARD SKILLS

- Python
- Java
- C++
- JavaScripty
- SQL
- Web dev
- Scikit-learn
- Pandas
- NumPy
- Matplotlib
- AI
- DSA

SKILLS

- Management Skills
- Creativity
- Digital Designs
- Organising
- Critical Thinking
- Leadership

LANGUAGE

- English
- Marathi
- Hindi
- Sanskrit
- German

About Me

Second-year B.Tech CSE student and driven, curious learner with a deep passion for how AI can turn imagination into reality—especially in the field of healthcare.Reading research papers, case studies, and real-world implementations made me realize how transformative this technology can be in saving lives and improving patient care. I aspire to contribute to cutting-edge healthcare solutions through AI, machine learning, and data science. I'm actively building strong foundations in advanced Python and AI through hands-on projects, and have recently begun diving into machine learning and data science. My goal is to grow into a versatile, multilingual programmer, dedicated to creating meaningful, research-driven innovations that make a difference in the world.

Education

- **Amity University Mumbai 2023-27**
- **Ramnarian Ruia College**
- **Bombay Cambridge International School**

Aditional Information

- Open Source Contributions: Actively contribute to open-source AI/ML projects on platforms like github.
- Volunteer Work : Volunteered for Nirman and hackathon in Amity University Mumbai, Registration Commumity of Technical Fest and Event Head managed 100 participants learned marketting,organising and registration the event was a huge success with most participants.
- Sports activist played Volleyball, Basketball and Track events.
